

NATIONAL DEMONSTRATION

FOR A MOBILITY WITHOUT BORDERS AND EXPLOITATION!

We are the immigrant men and women who work and live in this country, since many years or for short time. Our living conditions, like those of Italians, are becoming more and more precarious.

There is no work, paying a rent and obtaining a residenza is very hard. Moreover, for us immigrants it is more and more difficult to obtain and maintain a residence permit.

The long world economic crisis and the increasingly widespread wars have intensified instability and fear in everybody, while the Italian government puts in place policies about work, housing and services that make us more and more precarious. And for us immigrants, freedom of movement is increasingly limited both within and outside Italy.

These are criminal and racist politics for everybody and this is why we must stand united, Italians and immigrants together, against those who want to divide us and exploit us! It's time to say "enough" and raise our heads! We want to live a normal life, have freedom of movement, access to housing and services and be free from exploitation.

We don't want to live hiding and we don't want to be deported!

For these reasons, with the solidarity of many Italian women and men, on November 12th we have organised a big national demonstration to meet the Ministry of Interior and ask

permessi di soggiorno, residenza e libertà di movimento!

**12 NOVEMBRE ore 14.00 • Piazzale San Giovanni (ROMA)
tutti insieme verso il Ministero dell'Interno.**
